

NOMAD CZ

Courtroom Presentation System

Scalable Functionality with Location in Mind

Centralized technology, set off to the side.

From hearing rooms to jury trial rooms, the Nomad CZ has technology that is scalable to meet your presentation needs and the ability to fit your room where space is limited. It is designed to be placed off to the side of a hearing room or courtroom when a wall is the best location.

The CZ offers optimal audio visual technology that's out of the way, but not an afterthought. The precision-designed, all-in-one AV system centrally stores and seamlessly controls the technology for all types of presentations. It offers optimal sight lines, impressive ease of use and convenient storage, with plenty of countertop workspace for papers and interactive AV equipment.

The CZ - innovative AV technology created with location in mind.

SYSTEM FEATURES

Control SYSTEM
Provides presenters with a user-friendly interface that is easily accessed and controlled

Confidence MONITOR
Mirrors the selected device so presenters do not have to turn their backs to the audience

Personal DEVICES
Connectivity for personal devices allows presenters to share content from smart phones, tablets and laptops

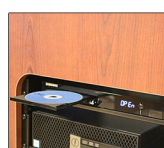

Document CAMERA
Displays virtually any type of physical visual aid, from documents to 3D objects, in real time

Bose Sound SYSTEM
Provides high fidelity audio that can fill courtrooms of any size

Wireless INPUT
Wirelessly connect mobile devices for convenient presentation from anywhere in the room

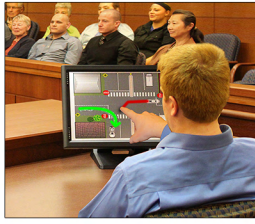

Blu-Ray PLAYER
Play previously recorded content that is stored on CDs, DVDs and Blu-ray discs

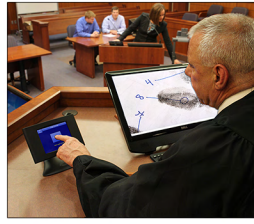

Flat Panel or PROJECTOR
Provides the big screen that allows the audience to view images as they are being presented

POPULAR COURTROOM OPTIONS

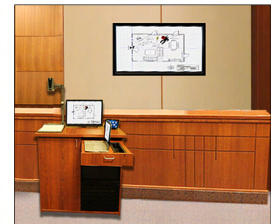

Witness Annotation

A touch-screen monitor at the witness stand allows witnesses to mark and highlight presented evidence so jurors can better understand their point of view through visual reinforcement.

Judge Override

A second touch panel gives the judge or court staff control over the evidence that is presented. Selective blanking for evidence suppression is a common function of a second touch panel.

Video Display Solutions

Evidence presentation solutions generally require multiple display devices throughout the courtroom so all parties can simultaneously view presented images and videos.

5-YEAR WARRANTY

FULL LIFE-CYCLE SUPPORT INCLUDES:

- Online training customized for *your* system
- Operational phone support
- Troubleshooting assistance
- On-site repair labor
- Replacement parts as necessary
- Optional 2-year warranty/life-cycle extension available
