

NOMAD LT

Evidence Presentation System

Evidence Presentation Made Easy

The Nomad LT is an all-in-one audio visual system that centrally stores and seamlessly controls all of the technology attorneys need to present physical and digital evidence in the courtroom.

With a full array of video, audio and control hardware built into a compact lectern, the Nomad LT is the perfect centerpiece in any courtroom technology solution.

Engineered and programmed around the principle of standardization, the Nomad LT is a user-friendly solution that has proven to perform reliably in courtrooms throughout the United States. An extensive list of pre-tested, qualified options allows the Nomad LT to be tailored to the specific needs of your courtroom.

SYSTEM FEATURES

Control SYSTEM
Provides attorneys with a user-friendly interface that is easily accessed and controlled

Confidence MONITOR
Mirrors the selected device so that the attorney does not have to turn his or her back to the audience

Personal DEVICES
Connectivity for personal devices allows attorneys to share content from smart phones, tablets and laptops

Document CAMERA
Allows attorneys to display virtually any type of physical evidence, from documents to 3D objects, in real time

Bose Sound SYSTEM
Provides high fidelity audio that can fill courtrooms of any size

Blu-Ray PLAYER
Plays previously recorded content that is stored on CDs, DVDs and Blu-ray discs

Gooseneck MICROPHONE
Amplifies an attorney's voice throughout the courtroom and can easily feed an audio recording solution

Touch-Screen ANNOTATION
Using the confidence monitor, attorneys can digitally mark images to draw attention to critical details

POPULAR COURTROOM OPTIONS

Witness Annotation

A touch-screen monitor at the witness stand allows witnesses to mark and highlight presented evidence so jurors can better understand their point of view through visual reinforcement.

Judge Override

A second touch panel gives the judge or court staff control over the evidence that is presented. Selective blanking for evidence suppression is a common function of a second touch panel.

Video Display Solutions

Evidence presentation solutions generally require multiple display devices throughout the courtroom so all parties can simultaneously view presented images and videos.

5-YEAR WARRANTY

FULL LIFE-CYCLE SUPPORT INCLUDES:

- Online training customized for *your* system
- Operational phone support
- Troubleshooting assistance
- On-site repair labor
- Replacement parts as necessary
- Optional 2-year warranty/life-cycle extension available

FURNITURE FEATURES (EXCLUSIVELY DESIGNED AND BUILT BY NOMAD)

Slow Close Drawer Slides

Prevent damage and noise caused by drawers slamming shut

Dual-Sided Service Access

Removeable panels allow access for troubleshooting and service

Tilting Monitor Mount

Allows monitor to be positioned for proper viewing

Doc Cam Auto On/Off

Saves energy and helps prevent heat build-up when drawer is shut

Ample Paper Space

Plenty of workspace for documents, notes and binders

Device Security

Secured components prevent removal and theft

Rack Mounted Components

Minimizes footprint and allows service access

Active Cooling System

Constant airflow protects internal components from overheating

Power & USB Outlets

A convenient location for attorneys to charge personal devices

Permanent

A permanent installation protects against cables being pulled and damaged

Pivot 180 (Optional)

Quickly and easily rotate the system to face the judge, jury or witness

Mobile (Optional)

Share the system between courtrooms or move when not in use
