

# NOMAD LT

All-In-One Audio Visual System

## Presentations Made Easy

The Nomad LT is an all-in-one audio visual presentation system that centrally stores and seamlessly controls all of the technology users need to present physical and digital visual aids.

With a full array of video, audio and control hardware built into a compact lectern, the Nomad LT is the perfect centerpiece in any AV technology solution.

Engineered and programmed around the principle of standardization, the Nomad LT is a user-friendly solution that has proven to perform reliably in presentation spaces throughout the United States. An extensive list of pre-tested, qualified options allows the Nomad LT to be tailored to the specific needs of each application.

## SYSTEM FEATURES

### Control **SYSTEM**

Provides presenters with a user-friendly interface that is easily accessed and controlled

### Confidence **MONITOR**

Mirrors the selected device so presenters do not have to turn their backs to the audience

### Personal **DEVICES**

Connectivity for personal devices allows presenters to share content from smart phones, tablets and laptops

### Document **CAMERA**

Allows presenters to display virtually any type of physical visual aid, from documents to 3D objects, in real time

### Bose Sound **SYSTEM**

Provides high fidelity audio that can easily fill rooms of up to 250 audience members

### Blu-Ray **PLAYER**

Plays previously recorded content that is stored on CDs, DVDs and Blu-ray discs

### Gooseneck **MICROPHONE**

Amplifies a presenter's voice throughout the room

### Flat Panel or **PROJECTOR**

Provides the big screen that allows the audience to view images as they are being presented

# POPULAR OPTIONS

## Touch-Screen Annotation

To increase comprehension, presenters can use the confidence monitor to digitally mark and highlight images to help draw the audience's attention to critical points of the visual aid.

## Built-in Computer

With a desktop computer built into the Nomad LT, users can quickly present documents and videos from web browsers, installed applications and USB storage devices.

## Wireless HDMI Transmission

Transmit the HDMI output signal from the Nomad System to display device(s) without the requirement of costly cable runs or creating unsightly cable clutter.

## 5-YEAR WARRANTY

### FULL LIFE-CYCLE SUPPORT INCLUDES:

- Online training customized for *your* system
- Operational phone support
- Troubleshooting assistance
- On-site repair labor
- Replacement parts as necessary
- Optional 2-year warranty/life-cycle extension available

## FURNITURE FEATURES (EXCLUSIVELY DESIGNED AND BUILT BY NOMAD)

**Slow Close Drawer Slides**  
Prevent damage and noise caused by drawers slamming shut

**Dual-sided Service Access**  
Removeable panels allow access for troubleshooting and service

**Tilting Monitor Mount**  
Allows monitor to be positioned for proper viewing
